Response to Amendment

1. In response to the Office Action mailed 12 June 2007, applicant submitted a response filed 12 September 2007, in which the applicant amended claims 1-14 and 16 without adding new matter. Applicant cancelled claim 15.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Please amend the title as follows:

"Pre-Processing Speech for Speech Recognition"

Allowable Subject Matter

3. Claims 1-14 and 16 are allowed. The following is an examiner's statement of reasons for allowance: Applicant discloses a speech pre-processing system that allows for more robust speech recognition by providing a method to deal with a plurality of different types of noise. The closest prior art in question (**Ming**) discloses a similar speech pre-processing system that utilizes a union model for clean speech likelihood determination in order to match speech patterns for speech recognition. However, **Ming** merely utilizes likelihoods from a plurality of sub-bands within this model to make the results more robust and less susceptible to a variety of unpredictable noise conditions. **Ming** fails to use both a collection of sub-band likelihoods in

conjunction with full-band speech likelihoods to obtain an overall likelihood that a given speech signal represents a speech-filled segment of an input signal. As discussed on page 13 of applicant's remarks dated 12 September 2007, wherein **Ming** does disclose the determination of both a sub-band and full-band likelihood, independently obtained are used strictly for purposes of comparison between two models. Claims 14 and 16 are allowed for the same rationale. Also, claims 2-13 are also allowed for further limiting the scope of independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
